Easily audit, track and allocate IP address spaces, Opmantek's opAddress will handle complex environments with multi-tenancy, overlapping address spaces and complex security domains easily. It has been designed to work out of the box with little or no configuration.

Simple Setup Powerful out-of-the-box capabilities put you back in control of your address space, fast.

Complete Visibility Yldentify all of your domains and subnets. Allocate your address space intelligently.

All Scenarios

opAddress handles scenarios unique to your business, such as multiple tenancies and overlapping address spaces.

Reccommended Requirements

UNDER 250 NODES

- Dual core processor
- 4Gb of RAM
- 20Gb HDD
- 64 bit Linux (CentOS)
- Apache

UNDER 1000 NODES

- Quad core processor
- 8Gb of RAM
- 80Gb HDD
- 64 bit Linux (CentOS)
- Apache
